Independent Auditor's Report

To the Board of Education
Davis County Community School District
Bloomfield, lowa

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Davis County Community School District, Bloomfield, Iowa, as of and for the year ended June 30, 2010, which collectively comprise the District's basic financial statements listed in the table of contents. These financial statements are the responsibility of District officials. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Davis County Community School District at June 30, 2010, and the respective changes in financial position and cash flows, where applicable, for the year then ended in conformity with U.S. generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 23, 2010 on our consideration of Davis County Community School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Management's Discussion and Analysis, Budgetary Comparison Information and the Schedule of Funding Progress for the Retiree Health Plan on pages 5 through 11 and 36 through 38 are not required parts of the basic financial statements, but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. We did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Davis County Community School District's basic financial statements. We previously audited, in accordance with the standards referred to in the second paragraph of this report, the financial statements for the eight years ended June 30, 2009 (which are not presented herein) and expressed unqualified opinions on those financial statements. Other supplementary information included in Schedules 1 through 5, including the Schedule of Expenditures of Federal Awards required by U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

December 23, 2010

Davis County Community School District provides this Management's Discussion and Analysis of its financial statements. This narrative overview analysis of the financial activities is for the fiscal year ended June 30, 2010. We encourage readers to consider this information in conjunction with the District's financial statements, which follow.

Financial Highlights

- The state cut district aid by 10% or approximately \$544,000 in October 2009.
- The District has a solvency ratio of 4.7%. Experts recommend a solvency ratio between 8-12%. The 10% state cut has greatly impacted the solvency ratio.
- Construction of a new high school continued which will be paid using revenue from statewide one cent sales tax.
- The District continued to support professional development for improvement in reading, mathematics, science, technology and character education.
- The District received \$484,000 from insurance claims for hail damages. The district then expended \$324,700 of that money for hail repairs to buildings and vehicles.

Overview of the Financial Statements

This report consists of three parts: management's discussion and analysis (this section), the basic financial statements and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

The first two statements are *District-wide financial statements* that provide both short-term and long-term information about the District's overall financial status.

The remaining statements are *fund financial statements* that focus on individual parts of the District, reporting the District's operations in more detail than the District-wide statements.

The *governmental funds statements* explain how basic services such as regular and special education were financed in the short term as well as what remains for future spending.

Proprietary funds statements offer short-term and long-term financial information about the activities the District operates like businesses, such as food services.

Fiduciary funds statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements of the District's budget for the year.

District-wide Statements

The District-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two District-wide statements report the District's *net assets* and how they have changed. Net assets- the difference between the District's assets and liabilities – are one way to measure the District's financial health or position.

Over time, increases or decreases in the District's net assets are an indicator of whether financial position is improving or deteriorating, respectively.

To assess the District's overall health, you need to consider additional non-financial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the District-wide financial statements, the District's activities are divided into two categories.

Governmental activities: Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property taxes and state aid finance most of these activities.

Business-type activities: The District charges fees to help cover the costs of certain services it provides. The District's school nutrition program would be included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

Some funds are required by state law and by bond covenants.

The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds or to show that it is properly using certain revenues such as federal grants.

The District has three kinds of funds:

Governmental funds: Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the District-wide statements, additional information at the bottom of the governmental funds statements explains the relationship differences between the two statements.

The District's governmental funds include the General Fund; Special Revenue Funds; and Debt Service Fund.

Proprietary funds: Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the District-wide statements.

The District's enterprise fund, one type of proprietary fund, is the same as its business-type activities but provide more detail and additional information, such as cash flows. The District currently has one enterprise fund, school nutrition program.

Fiduciary funds: The District is the trustee, or fiduciary, for assets that belong to others, such as scholarships.

The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the District-wide financial statements because it cannot use these assets to finance its operations. Currently, one scholarship is held in this fund.

Figure A-1 below provides a summary of the District's net assets at June 30, 2010, compared to June 30, 2009.

Financial Analysis of the District as a Whole

The District has strong fund balances, however trend data is concerning. Experts in school finance recommend a solvency ratio between 8-12%; the District is at 4.7% and has dropped five consecutive years. The District has determined needs in several areas, and is carefully utilizing existing balances to improve those areas. These areas include, but are not limited to, increasing student achievement, improving professional development, updating infrastructure needs and maintaining a quality staff.

Figure A-2 shows the change in net assets for the year ended June 30, 2010.

Change in net assets	\$ (586)	264	45	6	(541)	270	-300.4%				

In the 2009-10 school year:

- The District did considerable maintenance work utilizing the Physical Plant and Equipment (PPEL) fund and sales tax revenues.
- In addition, the district has a commitment to early retirement payments.

The following table, A-3, presents the cost of the District's major governmental activities: instruction, support services, non-instructional program and other expenses.

	_	Figure A-3 Total and Net Cost of Governmental Activities (Expressed in Thousands)											
		Total Cost of Services Change Net Cost of Services											
		2010	2009	2009-2010	2010 2009		2009-2010						
Instruction	\$	8,113	7,612	6.6%	4,964	5,055	-1.8%						
Support services		3,800	3,360	13.1%	3,800	3,359	13.1%						
Other expenses		1,016	1,015	0.1%	559	592	-5.6%						
Totals	\$	12,929	11,987	7.9%	9,323	9,006	3.5%						

The cost of all governmental activities this year was \$12,929,000. An increase of \$942,000 was due to the addition of:

- a kindergarten teacher and two Title I teachers
- increased Activity Fund expenditures of approximately \$20,000
- hail repairs to buildings and vehicles of \$390,000
- Increase in employee portion of IPERS of 6.35% to 6.65%
- Wage increases

The portion of the cost financed by users of the District's programs was \$9,322,718.

The net portion of governmental activities was financed with \$3,982,845 in property and sales tax, \$4,123,331 in state sources.

Business-Type Activities

The District's business-type activity is the School Nutrition Fund. Revenues of these activities were comprised of charges for services, federal and state reimbursements and investment income. Revenues of the District's business-type activities increased \$18,377 to \$526,092 while expenses decreased \$21,816 to \$480,456.

The District had been able to maintain student lunch prices at the same level for several years with careful management and use of government commodities. Lunch prices did increase for the 2009-2010 school year. The District has utilized investments to update equipment over the past few years. Federal support for the lunch program was \$278,616 (free/reduced lunches).

Financial Analysis of the District's Funds

As previously noted, the Davis County Community School District uses fund accounting to ensure and demonstrate compliance with the finance-related legal requirements.

Governmental Fund Highlights

The General Fund balance was \$700,651, a net decrease of \$335,612 from the prior year. The decrease was due to the following factors:

- A 10% ATB cut that resulted in a loss of \$544,000
- Loss of Phase I funding at a cost of approximately \$70,000

The Physical Plant and Equipment Levy (PPEL) and sales tax revenues were utilized for many of the items of remodeling and updating done this past year on infrastructure needs as well as the purchase of buses.

Business-Type Highlights

The School Nutrition Fund change in net assets was \$45,635 due to decreased operating expenses and increases in federal revenue resources.

Budgetary Highlights

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice for all funds, except blended component units, internal service funds, permanent funds and agency funds. This is referred to as the certified budget. The certified budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's certified budget is prepared on a modified accrual basis.

School districts have two levels of budgetary control. One form of budgetary control exists through the "certified budget", which includes all funds of the District as noted above. This budget is certified with the County Auditor and Department of Management each year. Iowa school districts may not certify a general fund budget in excess of its spending authority.

The other level of budgetary control is the "unspent (maximum) authorized budget" and pertains only to the General Fund of the District. The maximum authorized budget is the total "spending authority" in the General Fund of the District. The unspent balance is a budgetary concept and does not mean the "actual General Fund cash". It is imperative for patrons of District financial information to make this important distinction. The unspent balance is the amount of spending authority that is carried over into the next fiscal year. The unspent balance is a budgetary carryover and does not represent actual dollars (General Fund) or actual financial position (unreserved, undesignated General Fund balance) of the district.

The District exceeded the certified budget amounts in the instruction functional area. Future revenues from the Instructional Support Levy (ISL) will help alleviate funding shortages.

Capital Asset and Debt Administration

Figure A-4 provides a summary of the District's capital.

	Figure A-4 Capital Assets, net of Depreciation (Expressed in Thousands)										
		Governn	nental	Busines	ss type	Tota	al	Total			
		Activiti	es	Activ	ities	District		Change			
	June 30,		June	30,	June 30,		June 30,

Totals	\$	9,891	4,778	105	112	9,996	4,890	104.4%			

By the end of fiscal 2010, the District had invested \$9,890,869 net of accumulated depreciation, in a broad range of capital assets, including land, buildings, athletic facilities, computers, promethean boards, audio-visual equipment and transportation equipment.

Long Term Debt

Figure A-5 provides a summary of the District's long term debt.

	Figure A-5 Outstanding Long-Term Obligations							
	To	(Expressed in Thous						
	-	District June 30,						
	2010	2009	2009-2010					
Revenue bonds	9,695	9,695	0.0%					
Bond premiums	64	66	-3.0%					
Early retirement	542	584	-7.2%					
Compensated absences	23	-	0.0%					
Net OPEB liability	24		0.0%					
Totals	\$ 10,348	10,345	0.0%					

At year-end, the District had \$10,348,000 in sales tax revenue bond debt and other long-term debt outstanding. This represents an increase of \$3,000 from last year. Bond premiums and early retirement decreased, but compensated absences and net Other Post Employment Benefits (OPEB) liabilities were added.

Factors Bearing on the District's Future

At the time these financial statements were prepared and audited, the District was aware of existing circumstances that could significantly affect its financial health in the future:

- Changes in certified enrollment
- The continued impact of the 2009 10% Across the Board State cut will continue for at least 5 years or more.
- A special education deficit of \$123,490
- Technology maintenance on computers district-wide
- Employee contract settlements
- Future across-the-board cuts, funding freezes and 0% Allowable Growth at the state level
- Possible loss of statewide 4 vr. old preschool
- Healthcare reform
- Increases in employer share of IPERS

Contacting the District's Financial Management

This financial report is designed to provide the District's citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Betsy Bassett, Board Secretary/Business Manager, Davis County Community School District, 608 S. Washington Street, Bloomfield, Iowa 52537.

Exhibit D

Davis County Community School District Reconciliation of the Balance Sheet Governmental Funds to the Statement of Net Assets June 30, 2010

Total fund balances of governmental funds	\$ 5,897,124
Amounts reported for governmental activities in the Statement of Net Assets are different because:	
Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in the governmental funds.	9,890,869
Accrued interest payable on long-term liabilities is not due and payable in the current period and, therefore, is not reported as a liability in the governmental funds.	(235,103)
Long-term liabilities, including bonds payable, early retirement, compensated absences and other postemployment benefits payable are not due and payable in the current period and, therefore, are not reported as liabilities in the governmental funds. Those liabilities consist of: Revenue bonds payable Bond issuance costs Bond premiums Early retirement Compensated absences Other postemployment benefits Early retirement benefits Compensated absences Other postemployment benefits	(10,006,829)
Net assets of governmental activities	\$ 5,546,061

Exhibit F

Davis County Community School District Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances Governmental Funds to the Statement of Activities Year ended June 30, 2010

Net change in fund balances - total governmental funds	\$	(5,497,225)
Amounts reported for governmental activities in the statement of activities are different because:		
Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, those costs are reported in the Statement of Net Assets and are allocated over their estimated useful lives as depreciation expense in the Statement of Activities. The amounts of capital outlays and depreciation expense in the year are as follows: Capital outlays Sale of equipment Gain (loss) on disposal of assets Depreciation expense (322,104)	s)	5,112,737
Proceeds from issuing long-term liabilities provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Assets. Repayment of long-term liabilities is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Assets. Also, governmental funds report the effect of issuance costs and premiums, whereas these amounts are deferred in and amortized in the Statement of Activities. The amounts in the current year are as follows:		
Amortization of bond issuance costs Amortization of bond premiums (7,83° 3,166	,	(4,665)
Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when due. In the Statement of Activities, interest expense is recognized as the interest accrues, regardless of when it is due.		(193,960)
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds. Early retirement 44,246 Compensated absences (22,83° Other postemployment benefits (24,305))	(2,894)
Change in net assets of governmental activities	\$	(586,007)

(1) Summary of Significant Accounting Policies

Davis County Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades pre-K through twelve. Additionally, the District either operates or sponsors various adult education programs. These courses include remedial education as well as vocational and recreational courses. The geographic area served includes the City of Bloomfield, Iowa and the predominate agricultural territory in portions of Davis and Van Buren counties. The District is governed by a Board of Education whose members are elected on a non-partisan basis.

The District's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity

For financial reporting purposes, Davis County Community School District has included all funds, organizations, agencies, boards, commissions and authorities. The District has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the District. Davis County Community School District has no component units which meet the Governmental Accounting Standards Board criteria.

<u>Jointly Governed Organization</u> - The District participates in a jointly governed organization that provides services to the District but does not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the Davis County Assessor's Conference Board.

B. Basis of Presentation

Government-wide Financial Statements - The Statement of Net Assets and the Statement of Activities report information on all of the non-fiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for service.

The Statement of Net Assets presents the District's non-fiduciary assets and liabilities, with the difference reported as net assets. Net assets are reported in three categories:

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes and other debt attributable to the acquisition, construction or improvement of those assets.

Restricted net assets result when constraints placed on net asset use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net assets consist of net assets that do not meet the definition of the two preceding categories. Unrestricted net assets often have constraints on resources imposed by management which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions and interest restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

<u>Fund Financial Statements</u> - Separate financial statements are provided for governmental, proprietary and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as non-major governmental funds.

<u>Fund accounting</u> - The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts which comprise its assets, liabilities, reserves, fund balance/net assets, revenues and expenditures or expenses, as appropriate. The District has the following funds:

Governmental Fund Types: Governmental fund types are those funds through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the District's major governmental funds:

<u>General Fund</u>: The General Fund is the general operating fund of the District. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenses, including instructional, support and other costs.

<u>Management Fund</u>: This fund is authorized by lowa Code Section 298.4 and accounts for transactions related to unemployment, early retirement, judgments and settlements and the cost of liability insurance as it relates to property and casualty.

<u>Debt Service Fund</u>: The Debt Service Fund is utilized to account for the payment of interest and principal on the District's general long-term debt.

<u>Capital Projects Fund</u>: The Capital Projects Fund is used to account for all resources used in the acquisition and construction of capital facilities.

The other governmental funds of the District are considered non-major and are as follows:

<u>Special Revenue Funds</u>: The Special Revenue Funds account for the revenue sources that are legally restricted to expenditures for specific purposes. These funds consist of the following:

Student Activity Funds: This fund accounts for transactions that occur due to student-related activities from groups and organizations such as athletic and activity events, fundraising and other extra-curricular or co-curricular activities.

Physical Plant and Equipment Levy (PPEL) Fund: This fund is authorized by lowa Code 298.2 and accounts for transactions related to the improvement of facilities and grounds, construction of school houses, certain equipment expenditures and other expenditures authorized in lowa Code 298.3.

Proprietary Fund Types: Proprietary fund types are used to account for the District's ongoing organizations and activities which are similar to those often found in the private sector. The measurement focus is upon income determination, financial position and cash flows. The following are the District's proprietary funds:

<u>Enterprise Funds</u>: Enterprise funds are used to account for those operations that are financed and operated in a manner similar to private business or where the District has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability. In accordance with Governmental Accounting Standards Board (GASB) Statement No. 20, Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that Use Proprietary Fund Accounting, the District has elected to apply all applicable Financial Accounting Standards Board (FASB) pronouncements, issued on or before November 30, 1989, except for those pronouncements which conflict with or contradict GASB pronouncements.

The following enterprise fund of the District is considered non-major:

School Nutrition Fund: This fund accounts for transactions related to the school lunch, breakfast and summer food programs authorized by Iowa Code 283A.

Fiduciary Fund Types: Fiduciary funds account for assets held by the District in a trustee or agency capacity for the benefit of others and cannot be used to support District activities. The District has the following fiduciary fund type:

<u>Private Purpose Trust Fund</u>: These funds account for assets held by the District under trust agreements which require income earned to be used to benefit individuals through scholarship awards.

C. Measurement Focus and Basis of Accounting

The government-wide, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year end.

Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, and then general revenues.

The proprietary fund of the District applies all applicable GASB pronouncements, as well as the following pronouncements issued on or before November 30, 1989, unless these pronouncements conflict with or contradict GASB pronouncements: Financial Accounting Standards Board Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins of the Committee on Accounting Procedure.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's Enterprise Fund is charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The District maintains its financial records on the cash basis. The financial statements of the District are prepared by making memorandum adjusting entries to the cash basis financial records.

D. Assets, Liabilities and Fund Equity

The following accounting policies are followed in preparing the financial statements:

<u>Cash</u>, <u>Pooled Investments and Cash Equivalents</u> - The cash balances of most District funds are pooled and invested. Investments are stated at fair value except for the investment in the lowa Schools Joint Investment Trust which is valued at amortized cost and non-negotiable certificates of deposit which are stated at cost.

For purposes of the statement of cash flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash and, at the day of purchase, have a maturity date no longer than three months.

<u>Property Tax Receivable</u> - Property tax in governmental funds is accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date the tax asking is certified by the Board of Education. Delinquent property tax receivable represents unpaid taxes for the current and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenue recognized in these funds become due and collectible in September and March of the fiscal year with a 1½% per month penalty for delinquent payments; is based on January 1, 2008 assessed property valuations; is for the tax accrual period July 1, 2009 through June 30, 2010 and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April, 2009.

<u>Due from Other Governments</u> - Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants and reimbursements from other governments.

<u>Inventories</u> - Inventories are valued at cost using the first-in, first-out method for purchased items and government commodities. Inventories of proprietary funds are recorded as expenses when consumed rather than when purchased or received.

<u>Capital Assets</u> - Capital assets, which include property, furniture and equipment, are reported in the applicable governmental or business type activities columns in the government-wide Statement of Net Assets. Capital assets are recorded at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repair that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of two years.

Asset Class	<u>Amount</u>
Land	\$ 2,000
Buildings	10,000
Improvements other than buildings	3,000
Furniture and equipment:	
School Nutrition Fund equipment	300
Other furniture and equipment	2,500

Capital assets are depreciated using the straight line method over the following estimated useful lives:

	Estimated
	Useful Lives
Asset Class	(In Years)
Buildings	50 years
Improvements other than buildings	20-50 years
Furniture and equipment	5-15 years

<u>Salaries and Benefits Payable</u> - Payroll and related expenditures for teachers with annual contracts corresponding to the current school year, which are payable in July and August, have been accrued as liabilities.

<u>Deferred and Unearned Revenue</u> - Although certain revenues are measurable, they are not available. Available means collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred revenue in the governmental fund financial statements represent the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred revenue consists of unspent grant proceeds as well as the succeeding year's property tax receivable.

Unearned revenue on the Statement of Net Assets consists of unspent grant proceeds as well as the succeeding year's property tax receivable that will not be recognized as revenue until the year for which it is levied.

<u>Long-term Liabilities</u> - In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the Statement of Net Assets.

<u>Fund Equity</u> - In the governmental fund financial statements, reservations of fund balance are reported for amounts not available for appropriation or legally restricted by outside parties for use for a specific purpose.

<u>Restricted Net Assets</u> - In the government-wide Statement of Net Assets, net assets are reported as restricted when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors or laws and regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

E. Budgets and Budgetary Accounting

The budgetary comparison and related disclosures are reported as Required Supplementary Information. During the year ended June 30, 2010, expenditures exceeded the amounts budgeted in the instruction functional area.

(2) Cash and Pooled Investments

The District's deposits in banks at June 30, 2010 were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

At June 30, 2010, the District had investments as follows:

Success Bank Certificate of Deposit	\$ 1,002,605
Community First Bank Certificate of Deposit	3,137
Iowa Schools Joint Investment Trust	
Diversified Portfolio	3,909,804
Bankers Trust ISJIT	
Diversified Portfolio	 1,208,750
	\$ 6,124,296

The investments in the lowa School Joint Investment Trust are valued at an amortized cost pursuant to Rule 2a-7 under the Investment Company Act of 1940.

Credit risk. The investments in the Iowa School Joint Investment Trust and Goldman Sachs Financial Square Treasury Obligations were all rated Aaa by Moody's Investors Service.

(3) Interfund Transfers

The detail of interfund transfers for the year ended June 30, 2010 is as follows:

Transfer to	ransfer to Transfer from	
Debt Service	Capital Projects	\$ 651,960

Transfers generally move revenues from the fund statutorily required to collect the resources to the fund statutorily required to expend the resources.

(4) Capital Assets

Capital assets activity for the year ended June 30, 2010 was as follows:

2025	5.00		585,000	191,960	776,960
2026	5.00		620,000	161,835	781,835
2027	5.20		650,000	129,435	779,435
2028	5.20		680,000	94,855	774,855
2029	5.25		720,000	58,275	778,275
2030	5.25		750,000	19,687	769,687
	Total	\$	9,695,000	5,694,977	15,389,977

The District has pledged future statewide sales, services and use tax revenues to repay the \$9.695,000 of bonds issued in June, 2009. The bonds were issued for the purpose of financing a portion of the costs of a new school. The bonds are payable solely from the proceeds of the statewide sales, services and use tax revenues received by the District and are payable through 2030. The bonds are not a general obligation of the District. However, the debt is subject to the constitutional debt limitation of the District. The total principal and interest remaining to be paid on the notes is \$15,636,835. For the current year, no principal and interest was paid on the bonds and total statewide sales, services and use tax revenues were \$860,635.

The resolution providing for the issuance of the statewide sales, services and use tax revenue bonds includes the following provisions:

- a) \$803,030 of the proceeds from the issuance of the revenue bonds shall be deposited to a reserve account to be used solely for the purpose of paying principal and interest on the bonds if insufficient money is available in the sinking account. The balance of the proceeds shall be deposited to the project account.
- b) All proceeds from the statewide sales, services and use tax shall be placed in a revenue account.
- c) Monies in the revenue account shall be disbursed to make deposits into a sinking account to pay the principal and interest requirements of the revenue bonds for the fiscal year.
- d) Any monies remaining in the revenue account after the required transfer to the sinking account may be transferred to the project account to be used for any lawful purpose.

(6) Pension and Retirement Benefits

The District contributes to the Iowa Public Employees Retirement System (IPERS), which is a cost-sharing multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits which are established by state statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P.O. Box 9117, Des Moines, Iowa, 50306-9117.

Plan members are required to contribute 4.30% of their annual covered salary and the District is required to contribute 6.65% of annual covered salary. Contribution requirements are established by state statute. The District's contributions to IPERS for the years ended June 30, 2010, 2009 and 2008 were \$506,812, \$462,349, and \$435,221, respectively, equal to the required contributions for each year.

(7) Other Post-Employment Benefits (OPEB)

<u>Plan Description</u> - The District operates a retiree benefit plan which provides medical and prescription drug benefits for retirees and their spouses. There are 54 active and 8 retired members in the plan. Participants must be age 55 or older at retirement.

The medical/prescription drug coverage is purchased through an outside provider. Retirees under age 65 pay the same premium for the medical/prescription drug benefit as active employees, which results in an implicit subsidy and an OPEB liability.

<u>Funding Policy</u> - The contribution requirements of plan members are established and may be amended by the District. The District currently finances the retiree benefit plan on a pay-as-you-go basis.

Annual OPEB Cost and Net OPEB Obligation - The District's annual OPEB cost is calculated based on the annual required contribution (ARC) of the District, an amount actuarially determined in accordance with GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The following table shows the components of the District's annual OPEB cost for the year ended June 30, 2010, the amount actually contributed to the plan and changes in the District's net OPEB obligation:

Annual required contribution	\$	34,263
Interest on net OPEB obligation		-
Annual OPEB cost		34,263
Contributions made		(9,954)
Increase in net OPEB obligation	<u> </u>	24,309
Net OPEB obligation beginning of year		-
Net OPEB obligation end of year	\$	24,309
Not of LB obligation ond of year	Ψ	24,000

For calculation of the net OPEB obligation, the actuary has set the transition day as July 1, 2009. The end of year net OPEB obligation was calculated by the actuary as the cumulative difference between the actuarially determined funding requirements and the actual contributions for the year ended June 30, 2010.

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation as of June 30, 2010 are summarized as follows:

		Percentage of	Net
Year	Annual	Annual OPEB	OPEB
Ended	OPEB Cost	Cost Contributed	Obligation
June 30, 2010	\$ 34,263	29.10%	\$ 24,309

<u>Funded Status and Funding Progress</u> - As of July 1, 2009, the most recent actuarial valuation date for the period July 1, 2009 through June 30, 2010, the actuarial accrued liability was \$345,459, with no actuarial value of assets, resulting in an unfunded actuarial accrued liability (UAAL) of \$345,459. The covered payroll (annual payroll of active employees covered by the plan) was approximately \$7,500,000, and the ratio of the UAAL to covered payroll was 4.6%. As of June 30, 2010, there were no trust fund assets.

Actuarial Methods and Assumptions - Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the health care cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Funding Progress, presented as required supplementary information in the section following the Notes to Financial Statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of the July 1, 2009 actuarial valuation date, the unit credit actuarial cost method was used. The actuarial assumption includes a 2.5% discount rate based on the District's funding policy. The projected annual medical trend rate is 6%. The ultimate medical trend rate is 6%.

Mortality rates are from the RP2000 Group Annuity Mortality Table, applied on a gender-specific basis. Annual retirement and termination probabilities were developed from the retirement probabilities from the IPERS Actuarial Report as of June 30, 2007 and applying the termination factors used in the IPERS Actuarial Report as of June 30, 2007.

(8) Termination Benefits

The District offered a voluntary early retirement plan for certified employees. Eligible employees must have been at least age fifty-five and employees must have completed ten years of continuous service to the District. Employees must have completed an application which was required to be approved by the Board of Education. An eligible employee in the early retirement program may have elected to receive either option 1 or option 2. The option elected was stated in the application. Option 1 was a \$20,000 cash benefit payable over four (4) annual installments of \$5,000 each. Option 2 was a \$20,000 cash benefit payable over five (5) annual installments of \$4,000 each. Early retirement benefits paid during the year ended June 30, 2010, totaled \$181,601.

(9) Risk Management

The District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

(10) Area Education Agency

The District is required by the Code of lowa to budget for its share of special education support, media and educational services provided through the area education agency. The District's actual amount for this purpose totaled \$456,463 for the year ended June 30, 2010 and is recorded in the General Fund by making a memorandum adjusting entry to the cash basis financial statements.

(11) Related Party Transactions

The District had business transactions totaling \$30,905 between the District and District officials during the year ended June 30, 2010.

(12) Construction Commitment

The District has entered into various contracts totaling \$87,706,024 for the construction of a new high school building. As of June 30, 2010, costs of \$5,375,852 had been incurred against the contracts. The balance of \$3,330,172 remaining at June 30, 2010 will be paid as work on the project progresses.

(13) Contingency

The District is involved in legal action over a workers' compensation claim. At this time any potential settlement amount is not believed to be material to the financial statements and a loss amount has not been accrued.

This budgetary comparison is presented as Required Supplementary Information in accordance with *Governmental Accounting Standards* Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds except Private Purpose Trust and Agency Funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on the GAAP basis.

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functions, not by fund. These four functions are instruction, support services, non-instructional programs and other expenditures. Although the budget document presents function expenditures or expenses by fund, the legal level of control is at the aggregated function level, not by fund. The Code of lowa also provides District expenditures in the General Fund may not exceed the amount authorized by the school finance formula. During the year, the District adopted one budget amendment, increasing budgeted expenditures by \$9,365,660.

During the year ended June 30, 2010, expenditures exceeded the amounts budgeted in the instruction functional area.

Basis of Presentation - The Schedule of Expenditures of Federal Awards includes the federal grant activity of the Davis County Community School District and is presented in conformity with the accrual or modified accrual basis of accounting. The information on this schedule is presented in accordance with the requirements of OMB Circular A-133, <u>Audits of States, Local Governments, and Non-Profit Organizations</u>. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

Davis County Community School District

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Board of Education of Davis County Community School District:

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Davis County Community School District, Bloomfield, Iowa, as of and for the year ended June 30, 2010, which collectively comprise the District's basic financial statements listed in the table of contents, and have issued our report thereon dated December 23, 2010. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Davis County Community School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Davis County Community School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Davis County Community School District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Davis County Community School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of non-compliance or other matters that are described in Part IV of the accompanying Schedule of Findings and Questioned Costs.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2010 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Davis County Community School District's responses to findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. While we have expressed our conclusions on the District's responses, we did not audit Davis County Community School District's responses and, accordingly, we express no opinion on them.

This report, a public record by law, is intended solely for the information and use of the officials, employees and citizens of Davis County Community School District and other parties to whom Davis County Community School District may report, including federal awarding agencies and pass-through entities. This report is not intended to be and should not be used by anyone other than these specified parties.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of Davis County Community School District during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

Independent Auditor's Report on Compliance with Requirements Applicable to Each Major Program and on Internal Control over Compliance in Accordance with OMB Circular A-133

To the Board of Education of Davis County Community School District:

Compliance

We have audited the compliance of Davis County Community School District with the types of compliance requirements described in U.S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2010. Davis County Community School District's major federal programs are identified in Part I of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grant agreements applicable to each of its major federal programs is the responsibility of Davis County Community School District's management. Our responsibility is to express an opinion on Davis County Community School District's compliance based on our audit.

We conducted our audit of compliance in accordance with U.S. generally accepted auditing standards, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether non-compliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Davis County Community School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Davis County Community School District's compliance with those requirements.

In our opinion, Davis County Community School District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2010.

Internal Control Over Compliance

The management of Davis County Community School District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grant agreements applicable to federal programs. In planning and performing our audit, we considered Davis County Community School District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Davis County Community School District's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses and, therefore, there can be no assurance all deficiencies, significant deficiencies or material weaknesses have been identified.

A deficiency in the District's internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance such that there is a reasonable possibility material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected and corrected on a timely basis.

Davis County Community School District's responses to the findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. While we expressed our conclusions on the District's responses, we did not audit Davis County Community School District's responses and, accordingly, we express no opinion on them.

This report, a public record by law, is intended solely for the information and use of the officials, employees and citizens of Davis County Community School District and other parties to whom Davis County Community School District may report, including federal awarding agencies and pass-through entities. This report is not intended to be and should not be used by anyone other than these specified parties.

December 23, 2010

Part I: Summary of the Independent Auditor's Results

- (a) Unqualified opinions were issued on the financial statements.
- (b) No material weaknesses in internal control over financial reporting were disclosed by the audit of the financial statements.
- (c) The audit did not disclose any non-compliance which is material to the financial statements.
- (d) No material weaknesses in internal control over major programs were disclosed by the audit of the financial statements.
- (e) An unqualified opinion was issued on compliance with requirements applicable to each major program.
- (f) Major programs were as follows:
 - CFDA Number 84.010 Title I Grants to Local Educational Agencies
 - CFDA Number 84.394 ARRA State Fiscal Stabilization Fund (SFSF) Education State Grants, Recovery Act
- (g) The dollar threshold used to distinguish between Type A and Type B programs was \$300,000.
- (h) Davis County Community School District qualified as a low-risk auditee.

Part II: Findings Related to the Financial Statements

INSTANCES OF NON-COMPLIANCE:

No matters were noted.

INTERNAL CONTROL DEFICIENCIES:

No matters were noted.

Part III: Findings and Questioned Costs for Federal Awards

INSTANCES OF NON-COMPLIANCE:

No matters were noted.

INTERNAL CONTROL DEFICIENCIES:

No matters were noted.

Part IV: Other Findings Related to Required Statutory Reporting

IV-A-10 Certified Budget - Expenditures for the year ended June 30, 2010, exceeded the certified budget amounts in the instruction functional area.

Recommendation - The certified budget should have been amended in accordance with Chapter 24.9 of the Code of lowa before expenditures were allowed to exceed the budget.

Response - Future budgets will be amended in sufficient amounts to ensure the certified budget is not exceeded.

Conclusion - Response accepted.

IV-B-10 Questionable Expenditures - No expenditures that may not meet the requirements of public purpose as defined in an Attorney General's opinion dated April 25, 1979 were noted.

IV-C-10 <u>Travel Expense</u> - No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.

IV-D-10 <u>Business Transactions</u> – Business transactions between the District and District officials or employees are detailed as follows:

Name, Title and Business Connection	Transaction <u>Description</u>	<u>Amount</u>
Rick Lynch, Brother to Board Member Rod Lynch Lynch Law Office	Legal Services	\$6,500
Jeff Owen, Son of Board Member Marty Owen Breadeaux Pizza	Food	4,968
Don Huggins, Brother-in-law of Director of Support Services Dan Roberts Huggins Electric	Electrical Services	19,437

None of the transactions appear to be a conflict of interest and they appear to be in compliance with board policies.

Recommendation - The District may want to consult legal counsel to determine disposition of this matter.

Response - We will consider the need to consult with legal counsel.

Conclusion - Response accepted.

IV-E-10 <u>Bond Coverage</u> - Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to ensure that coverage is adequate for current operations.

IV-F-10 Board Minutes - No transactions requiring Board approval which had not been approved by the Board were noted.

IV-G-10 Certified Enrollment – A variance in the basic enrollment data certified to the Department of Education was noted.

Recommendation – The certified enrollment data should be corrected.

Response – We will attempt to correct certified enrollment errors in the future.

Conclusion - Response accepted.

IV-H-10 <u>Supplementary Weighting</u> – No variances regarding the supplementary weighting certified to the lowa Department of Education were noted.

IV-I-10 <u>Deposits and Investments</u> - No instances of noncompliance with the deposit and investment provisions of Chapter 12B and 12C of the Code of Iowa and the District's investment policy were noted.

IV-J-10 <u>Certified Annual Report</u> - The Certified Annual Report was filed with the Department of Education timely and we noted no significant deficiencies in the amounts reported.

IV-K-10 Categorical Funding – No instances were noted of categorical funding used to supplant rather than supplement other funds.

IV-L-10 <u>Statewide Sales, Services and Use Tax</u> – No instances of non-compliance with the use of the statewide sales, services and use tax revenue provisions of Chapter 423F.3 of the Code of Iowa were noted.

Pursuant to Chapter 423F.5 of the Code of Iowa, the annual audit is required to include certain reporting elements related to the statewide sales, services and use tax revenue. For the year ended June 30, 2010, the District's financial activity and other required information for the statewide sales, services and use tax revenue are as follows:

Beginning balance		\$ -
Statewide sales, services and use tax revenue		681,901
Expenditures/transfers out		
School infrastructure:		
Facilities acquisition and construction	\$ (29,941)	
Debt service for school infrastructure		
General obligation debt	 (651,960)	(681,901)
Ending balance		\$ -

The statewide sales, services and use tax revenue received during the year ended June 30, 2010 is equivalent to a reduction in the following levies:

	Pe	r \$1000 of		
	7	roperty Tax		
	\	/aluation		Dollars
Debt service levy	\$	2.88231	\$	681,901
